Submitted by lindan on Mon, 05/07/2018 - 05:28

Date and time: Mon, 05/07/2018 - 05:18

Location / Venue:

UNITID

The University of Nairobi HIV Capacity Building Fellowship, funded by the U.S. President's Emergency Plan for AIDS Relief (PEPFAR) through the Centers for Disease Control and Prevention (CDC), is offering a two (2) year post-masters Fellowship training.

The training program is implemented in response to the realization that there is great need and demand to increase HIV/AIDS program capacity through human resources and institutional capacity building. **The program is specially designed for top level health managers at the national and county levels including county health management teams.** In implementing the program, University of Nairobi is in partnership with University of Washington (UW), USA, Management Sciences for Health (MSH), USA, Kenyatta University (KU), Egerton University (EU), and Jaramogi Oginga Odinga University of Science and Technology (JOOUST).

Selected fellows will undergo a two-year competency based training program at the University of Nairobi and selected host institutions. **This program will be delivered through either of two options; Face-to-Face or online learning.** Upon successful completion of the training fellows will be awarded fellowship in the following specializations:

1. Program Management
2. Health Informatics
3. Health Economics
4. Epidemiology and Biostatistics
5. Monitoring and Evaluation

Through this advertisement, we wish to select and admit interested Kenyan Health Professionals with relevant post-graduate training. Interested persons should read the detailed requirements for the specific specialization areas and training methodologies on our website at: <http://unitid.uonbi.ac.ke> [1]

REQUIREMENTS
