

## MISSION FOR ESSENTIAL DRUGS AND SUPPLIES (MEDS) VISIT UNITID

MEDS is a faith-based organization that operates a pharmaceutical quality control laboratory. MEDS is in the process of expanding the laboratory to accommodate microbiological tests in-house which is expected to comply with the requirements of an ISO 7 and 5 equivalent to Biosafety Level 2 and 3 respectively. The visit to UNITID was to accomplish the following:

1. Appreciate the layout of UNITID containment and how it affects the workflow, human traffic and material handling/transport
2. Discuss technical issues that have affected UNITID since installation of the microbiology laboratory
3. Get insight on how to deal with the contractors and maintenance personnel
4. Discuss how to prepare for any anticipated challenges
